DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 and 13-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Bindra et al., U.S. Patent No. 5,229,550 (hereinafter "Bindra"). Bindra discloses a circuitized substrate comprising a first layer comprised of a dielectric material including a resin material including a predetermined quantity not including continuous, semi-continuous fibers. See Bindra, Abstract; Fig. 1, col. 2, lines 13-25. Bindra uses PTFE and CTFE organic resin compound with quartz or silicon particle filler, particularly silica. See Bindra, col. 2, line 19.

3. Claims 11-12 are objected to for depending upon a rejected base claim.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. What are PCB's? Please define in longhand. What is meant by "or the like"? This language, "or the like" is indefinite.
